

WHO WE ARE

Welcome to the intersection of art, community, and joy where we reach our community through Equity theater, world-class concerts, films, education and outreach. The Saugatuck Center for the Arts is a community spark-plug bringing people - and learners of all ages together under one roof.

WHAT WE BELIEVE

In the SCA studio we provide a designated time and space for imaginative creativity for all ages! We believe that students benefit from our project-based, hands-on programs. We facilitate experimenting, playing, and working alongside professional artists/creatives. We celebrate process over product so make a mess, try something new, and glean new perspectives.

This summer, the SCA is offering a variety of camps, two of which are ongoing series: our Mini Makers series and our partnership with the Outdoor Discovery Center. We offer programs for ages 1.5 to 14. Camps are hosted both on-site at the SCA and off-site (field trips), typically running in the mornings through early afternoons. Most offerings are 1-day workshops.

OUR JOY SQUAD

The educational structure of the SCA is twofold: we aim to provide campers with the utmost valuable creative touchpoints by hiring exceptional instructors, while simultaneously giving our instructors life-changing professional experiences as members of the "Joy Squad."

These developing young edu(creators) come from a variety of backgrounds and levels of experience: some are biology majors, spanish teachers, art students, or year-round art educators. We believe that these varied perspectives enrich the ways we teach students to approach creativity with curiosity and excitement. Members of the joy squad gain life-long professional experience when they teach with the SCA as they grow in their own leadership skills and teaching styles by leading youth through new discoveries, fresh observations, artistic growth, and personal successes.
